

## Success stories for students who studied Computer at KIWOCE since Jan 2015

Prepared in Spring, 2018

	Student name	Student details
1	<b>A.A.</b>	A. took a 3-month computer course from Jan 2015 at KIWOCE. He used these skills to move to a better position at a leading tourist lodge in Moshi.
2	<b>A.M.</b>	A. took at 3-month computer course in 2015 after which she joined the Public Service College in Tabora.
3	<b>N.M.</b>	N. took a 3-month computer course at KIWOCE and soon after finishing, she went to the Same School of Nursing for her Certificate in Nursing, a course which she completed in January 2018. She visited KIWOCE soon after graduating from college and testified that computer knowledge which she acquired at KIWOCE helped her a lot while in college. According to her, they did not get an in-depth computer training at the college. She is expecting employment as a nurse soon, where she will be capable of interacting with any computer health software in place.
4	<b>G.M.</b>	Similar to N.M. above, G. took a 3-month computer course at KIWOCE and soon after finishing, she went to the Same School of Nursing for her Certificate in Nursing, a course which she completed in January 2018. She came back to KIWOCE to use the Center's computers to send job applications online.
5	<b>M.M.</b>	M. was working at Hai District water office. He took a computer course to improve his competency at work, as the government was starting to computerize the water office activities. He is now working at a water office in Moshi District.
6	<b>J.M.</b>	J. was working at Hai District water office. He came to take computer course to improve his competency at work, as the government was starting to computerize the water office activities. He met with the KIWOCE computer teacher and reported that the knowledge he got from KIWOCE is helping him to computerize his work activities.
7	<b>A.H.</b>	Sponsored by <i>GoCampaign</i> , she studies a 3-month computer course at KIWOCE. Soon after course completion, she joined the Arizona Teachers College. She graduated at the end of 2017 and is now seeking a job as a teacher.
8	<b>E.S.</b>	E. took a 3-month basic computer course (office

		package+internet) and then took a 1-month course on QuickBooks accounting package. Soon after finishing, E. became an entrepreneur with a shop selling clothes in Dar es Salaam. He has also been keeping fish at his Moshi home (which he learned how to do at KIWOCE's fish pond).
9	<b>J.K.</b>	J. came to KIWOCE for a computer course after finishing Form 4 secondary education. He is now a medical student at IMTU, expecting to graduate soon. He keeps in touch with KIWOCE and is glad that he took a computer course at KIWOCE because he is able to use his laptop to do his University studies. Also, as a doctor, he is expected to be able to use the various health software used by hospitals in Tanzania.
10	<b>M.H.</b>	M. was a biology teacher at New Life Secondary School when she came to KIWOCE for a 3-month computer course. She has since then been able to use a laptop to prepare her lesson notes and other materials. She now heads the Faraja Seminary school.
11	<b>A.J.</b>	Mr. J was a Physics & Math teacher at Moshi Technical School when he came to take a computer course at KIWOCE. His mastering of the computer classes inspired him to buy his own person laptop. Even after completing the course, he visits KIWOCE several times to demonstrate how he uses his laptop to prepare notes, examinations and other teaching materials for his students.
12	<b>F.M.</b>	F. came to KIWOCE soon after completing her Form 4 education. She was referred to us by her brother who had taken a basic computer course and a QuickBooks accounting package course at KIWOCE. She started volunteering at a stationery shop in Moshi even before completing her computer course. Soon after she completed her computer course, she was hired to run another stationery shop in Moshi. Two KIWOCE staff visited her stationery shop and saw how she was successfully applying her computer skills obtained at KIWOCE to type and print customers' letters, type and print examinations for a nearby school and print wedding invitation cards. She was able to make a living from her computer skills.
13.	<b>N.S.</b>	N. joined KIWOCE for a basic computer course after

		obtaining her business Degree from CBE college. After finishing, she took a QuickBooks accounting package course at KIWOCE for another month. She now runs a retail & wholesale shop in Moshi town. She is using a computer to record all her business transactions.
14	<b>C.M.</b>	C. took a 3-month beginner computer course at KIWOCE. She is now using a computer to keep all records for the WAKASA Women group in the Katanini area in the same village as KIWOCE. She has also been sending her children to take various courses at KIWOCE.
15	<b>R.O.</b>	R. joined KIWOCE for her computer course after completing her secondary education. This course caused her to develop more interest on computers and she is now studying her Diploma in Computer Science at Makumira University.
16	<b>MR. G.M.</b>	He is village chairman who came to KIWOCE in January 2016 to gain computer skills. He took a 3-month computer course which has made him capable of using computers to prepare various office related documents and print them. Mr. Munisi also brought 3 of his to come and study at KIWOCE because it is a place he trusts very much.
17	<b>G.S.</b>	G. came to KIWOCE for a three-month computer course in January 2016. He then joined a business college in Shinyanga where he is expecting to graduate as an accountant. He visited KIWOCE in January 2018 and shared how he is comfortably using computers to facilitate his studies in college and how grateful he is for learning practical computer knowledge at KIWOCE.
18	<b>A.U.</b>	A. took a computer & English course at KIWOCE from Oct-Dec 2016 and demonstrated a good practical knowledge in computer. She had just graduated from a Teachers college where she was educated as an early childhood education teacher. She is now teaching at one of the schools in Moshi town. She is using a computer to prepare her lesson notes.
19	<b>R.K.</b>	R. was sponsored by another NGO to come and study at KIWOCE. She first attended the Form 4 secondary education class for one year and passed the National Exam. She then took a 3-month THRIVE F4 course. THRIVE features a complete computer course in which she demonstrated a good practical knowledge at the completion of the course. She then joined the Moshi Cooperative College where she is now studying. She is

		using her computer to take notes and also write assignments and homework. She tells us the knowledge she got from KIWOCE has helped her a lot.
20	<b>D.E.K.</b>	D. came to KIWOCE from Jan-Apr 2017. She took a THRIVE course which features a full computer course program. At completion, she joined College of Business Education (CBE) for a Certificate in Business Administration. She uses her knowledge of computers to facilitate her college studies.
21	<b>S.G.</b>	S. was sponsored by Compassion Intl to come to KIWOCE for a computer and English course from May - July 2016 after completing her Form 4 Secondary education. After graduating, she moved to Tanga (a nearby region) where she works in the hotel business.
22	<b>E.M.</b>	He is a businessman who came to KIWOCE for a Computer and English course from January to April 2016. He demonstrated a good practical knowledge of computers which even motivated him to buy his own laptop in the middle of the course. He is now applying his computer skills especially in Excel, Word and the Internet to his business endeavors. He uses his laptop to record his business transactions and uses email to communicate with clients. He is good friend of KIWOCE and regularly visits the center.
